Detailed Breakdown

1. Home Advantage Trends

What is the historical Home Advantage (win % and goal diff) across all 16 seasons?

- Required Dimensions: dim_season, dim_venue
- Target Measures: is_win, goals_for, goals_against
- Target View / OLAP: vw_monthly_performance / CUBE

2. Shot Conversion Efficiency

Which teams have the highest shot-conversion efficiency (goals per shot on target)?

- **Required Dimensions:** `dim_team`, `dim_season`
- **Target Measures:** `shots`, `shots_on_target`, `goals_for`
- **Target View / OLAP:** `vw_team_segmentation`

3. Referee Strictness & Discipline

Which referees award the highest number of yellow and red cards per match?

- Required Dimensions: dim_referee, dim_season
- Target Measures: yellow_cards, red_cards, fouls_committed
- Target View / OLAP: vw_referee_performance

4. Seasonal & Monthly Performance Dynamics

How does monthly team performance (points/match) vary throughout a single season?

- Required Dimensions: dim_season, dim_date
- Target Measures: points, goals_for, goals_against
- Target View / OLAP: vw_monthly_performance / ROLLUP

5. Venue Impact & Stadium Capacity

Does stadium capacity directly correlate with home win percentage and points earned?

- **Required Dimensions:** `dim_venue`, `dim_team`
- **Target Measures:** `is_win`, `points`, `capacity`
- **Target View / OLAP:** `vw_team_segmentation`

6. Referee Foul-to-Card Ratios

Which referee shows the highest foul-to-card ratio for home vs. away teams?

- **Required Dimensions:** `dim_referee`, `dim_team`
- **Target Measures:** `fouls_committed`, `yellow_cards`, `red_cards`
- **Target View / OLAP:** `vw_referee_performance`

7. Rolling Team Form (5 Matches)

What is the 5-match rolling form (points, goals, clean sheets) for each team in a season?

- Required Dimensions: dim_team, dim_season, dim_date
- Target Measures: points, goals_for, is_clean_sheet
- Target View / OLAP: vw_team_form_last5

8. Matchweek Discipline & Fouls Correlation

How do team discipline records (cards) correlate with total fouls committed per matchweek?

- **Required Dimensions:** `dim_team`, `dim_season`
- **Target Measures:** `fouls_committed`, `yellow_cards`, `red_cards`
- **Target View / OLAP:** `fact_team_matchweek_snapshot`

9. Long-term Scoring Trends

What are the seasonal scoring trends (total goals per match) from 2010/11 to 2025/26?

- Required Dimensions: dim_season
- Target Measures: goals_for, goals_against, match count
- Target View / OLAP: ROLLUP Season > Month

10. Opponent Tier Performance

How do teams perform against specific tier classifications (Top 6 vs. Bottom 14 teams)?

- Required Dimensions: dim_team, opponent (role-playing)
- Target Measures: points, goals_for, goals_against
- Target View / OLAP: vw_team_segmentation
