# Business Requirements Document (BRD)

## 1. Stakeholders & Use Cases

- **Data Analysts & Scientists:** Seeking structured star schemas for statistical modeling and predictive analytics.
- **Media Executives & Journalists:** Requiring fast aggregations for historical match previews and official performance reports.
- **Club Strategy Teams:** Evaluating venue performance, tactical shot conversions, and discipline trends.

## 2. Core Functional Requirements

1. **Performance Tracking:** Calculate points, wins, losses, draws, and goal differentials across home and away matches.
2. **Referee Discipline:** Measure cards per foul, total penalties, and referee assignment trends.
3. **Venue & Pitch Advantage:** Quantify crowd capacity impact and home vs. away win percentages across all Premier League grounds.
4. **Scoring & Shot Efficiency:** Monitor shot accuracy (shots on target vs. total shots vs. goals converted).
5. **League Form Tracking:** Compute rolling 5-match team form and historical matchweek standings.
