Fact & Dimension Identification

1. Business Processes & Fact Tables

- **Process 1: Match Performance Tracking**
  - **Fact Table:** `fact_match_team` (Transaction Fact)
  - **Description:** Captures individual team statistics for a single match (2 records per match).
- **Process 2: Weekly League Standings**
  - **Fact Table:** `fact_team_matchweek_snapshot` (Periodic Snapshot)
  - **Description:** Captures cumulative points, goals, and standings at the end of each matchweek.
- **Process 3: Season Participation**
  - **Fact Table:** `fact_team_season` (Factless Fact Table)
  - **Description:** Tracks team inclusion in specific Premier League seasons.

2. Dimensional Entities & Keys

Dimension Entity	Primary Key (PK)	Attributes & Strategy
dim_date	`date_sk`	`full_date`, `day_name`, `month_name`, `year`, `is_weekend`
dim_season	`season_sk`	`season_code` (e.g., 1011), `season_years` (e.g., 2010/11)
dim_team	`team_sk`	`team_name` (BK), `city`, `stadium`, `capacity`
dim_referee	`referee_sk`	`referee_name` (BK)

Dimension Entity	Primary Key (PK)	Attributes & Strategy
dim_venue	`venue_sk`	`stadium_name` (BK), `city`, `capacity`

Modeling Strategies

- **Role-Playing Dimension:** `dim_team` is role-played as `opponent_team_sk`.
- **Unknown Member Strategy:** Surrogate key `-1` reserved for unknown/missing values in all dimensions.
